Subject: FW: MS4 Permit Stay granted by EPA - FC note: TO BE granted by EPA

FYI.

This is consistent with, and does not change our current message that EPA intends to grant the requested stay to postpone the effective date of the MA MS4 permit. A statement at the end of the e-mail string strikes me as also being consistent with our current message: EPA is still working out the details on how it will provide notice of the postponement.

----- Original Message -----

Good Afternoon,

I have just learned that EPA has agreed to stay the effective date of the MA MS4 General Permit.

The Massachusetts Coalition for Water Resources, with Lowell and Franklin joining, made a formal request to EPA to stay the effective date of the MA MS4 Permit (July 1, 2017), and due date for a Notice of Intent (September 28, 2017), pending appeal. A stay puts a temporary hold on implementation of the permit. A copy of their May 26, 2017 letter of request is attached.

Late last week, EPA agreed to grant the stay request, and is still working out the details on how it will provide notice of the stay. Within the next few days, EPA will issue a formal notice or, at a minimum, an e-mail announcement in advance of MS4 training webinars scheduled for later this week. We will circulate that information when we receive it. The appeal continues to move forward, but the stay will provide communities with immediate relief from complying with the permit until such time that the appeal is resolved.

Best,

Beverly
